Alliance Global net profit soars 34% to P11.3b in 1H 2013

The Andrew Tan-led Alliance Global Group Inc. (AGI) reported strong results for the first six months of 2013, with its net profit amounting to P11.26 billion, up 34 percent from P8.41 billion in the same period of 2012. Consolidated revenues also grew to P61.08 billion in the first six months of 2013, a 19 percent increase from P51.19 billion.

“All our major businesses continue to perform well within our expectations. We are confident that we can sustain our robust growth for the rest of the year,” said Dr. Andrew Tan, chairman of AGI.

Net income attributable to AGI shareholders reached P8.26 billion, up 44 percent from P5.73 billion in the same period last year. AGI's growth was led by its main subsidiaries Emperor Distillers Inc., Megaworld Corporation, and Travellers International Hotel Group, Inc., which collectively contributed 81 percent of the P8.26b earnings.

With total assets of around P301.3 billion, AGI is in a strong position to pursue its goals as it continues to enhance its operating efficiency and profitability. AGI's total cash and cash resources at the end of the period amounted to P78.8 billion.

Real estate arm Megaworld contributed around 35 percent to AGI's net income and about 28 percent to its total revenue. Megaworld yesterday reported total revenues of P17.28 billion in the first six months of 2013, up 12 percent year on year from P15.43 billion. Its net profit amounted to P4.25 billion, up from P3.69 billion, a 15 percent increase year on year. Megaworld, together with its subsidiaries, sold P38 billion in reservation sales for the six months of 2013, an increase of 27% from the same period last year.

Revenues and profits from the rest of AGI's portfolio of businesses also grew strongly. Apart from real estate, AGI has interests in industries such as food and beverage, quick service restaurants and integrated tourism estates.

Food and beverage arm Emperor reported total revenues to P13.86 billion, up 20 percent from P11.51 billion. Net profit jumped 35 percent to P3.17 billion from P2.35 billion. The company produces Emperor Gold and Emperor Light brandies and a line of flavored alcoholic beverages called The Bar. It recently introduced Emperor Deluxe, which is bottled in Spain. Emperor's growth came from increased sales of the world's best-selling brandy, Emperor, which sold over 31 million cases last year, mostly under the product Emperor Light.

Travellers posted total revenues of P19.12 billion in the first six months, up 24 percent from P15.44 billion. Its net profit grew to P2.31 billion from P1.85 billion, up 25 percent year on year. Travellers operates Resorts World Manila, the first integrated tourism estate in the country. Resorts World Manila is located in Newport City, set across from Terminal 3 of the Ninoy Aquino International Airport in Pasay City.

The other subsidiaries of AGI, Global-Estate Resorts Inc. (GERI) and Golden Arches Development Corporation (GADC), also showed double-digit growth rates in the first six months of 2013 versus the same period of 2012. GADC posted a 13% revenue growth, while GERI posted a 12% increase in revenue. Net profit growth was even stronger for GADC at 47%, while GERI enjoyed a 25% profit growth.

GADC operates the quick service restaurant business under the McDonald's brand. From 375 stores in 2012, GADC is planning to expand to 500 stores nationwide by 2015. GERI, for its part, develops integrated tourism estates in strategically located tourism hot spots such as Boracay, Tagaytay, and Batangas. It is well-positioned to promote the country on a global scale and drive the contribution of tourism to the growth of the economy.
