PART I – FINANCIAL INFORMATION

1. FINANCIAL STATEMENTS

Consolidated Statements of Financial Position
Consolidated Statements of Comprehensive Income
Consolidated Statements of Changes in Equity
Consolidated Statements of Cash Flows
Notes to Interim Consolidated Financial Statements
Schedule of Financial Soundness Indicators
Aging Schedule of Trade and Other Receivables Under Current Assets

The interim consolidated financial statements (ICFS) have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS) and Philippine Accounting Standard 34, *Interim Financial Reporting*. As such, they do not include all of the information and disclosures required for full annual consolidated financial statements, and thus should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended December 31, 2016 (ACFS). The accounting policies and methods used in the ICFS are consistent with those applied in ACFS, except for changes brought about by the adoption of new standards that become effective on January 1, 2017 [see Note 2.2 to the ICFS and Note 2.3(c) to the ACFS].

Accounting estimates, assumptions and judgments are used in preparing these statements; and while these are believed to be reasonable under the circumstances, actual results may ultimately differ from such estimates (see Note 3 to the ACFS).

The ICFS comprise the financial statements of the Company and its subsidiaries, after elimination of material intercompany transactions. In addition, shares of stock of the Company acquired by any of these subsidiaries are recognized as treasury shares and these are presented at cost as a deduction in the consolidated statements of changes in equity. Any changes in their market values as recognized separately by the subsidiaries are likewise eliminated in full. Gain or loss on the sale of these treasury shares is presented as addition to or deduction from additional paid-in capital.

Business Segments

The Group is organized into four major business segments, which aptly correspond to its operating subsidiaries, namely Megaworld, Emperador, Travellers or RWM, and GADC, which in turn represent the main products and services provided by the Group and the lines of business in which the Group operates, i.e. real estate development and leasing, manufacture and distribution of distilled spirits, tourism-entertainment and gaming, and quick-service restaurants operations (see Note 4 to the ICFS).

Please refer to Note 1 to the ICFS and ACFS for a comprehensive list of subsidiaries, associates and joint ventures.

- Revenue growth – measures the percentage change in sales/revenues over a designated period of time. Performance is measured both in terms of amount and volume, where applicable.
- Net profit growth – measures the percentage change in net profit over a designated period of time
- Net profit rate– computed as percentage of net profit to revenues - measures the operating efficiency and success of maintaining satisfactory control of costs
- Return on investment [or capital employed] – the ratio of net profit to total assets - measures the degree of efficiency in the use of resources to generate net income
- Current ratio – computed as current assets divided by current liabilities – measures the ability of the business to meet its current obligations. To measure immediate liquidity, quick assets [cash, marketable securities, accounts receivables] is divided by current liabilities.

The Group net profited P10.1 billion for the first half of the year, of which P6.7 billion was attributable to owners, as the Group sustained P66.8 billion revenues. While revenues remained flat, net profit and the portion attributable to owners took in the impact of the temporary non-operational days of Resorts World Manila (RWM) businesses in June this year (see Note 10.2 to the ICFS). Net profit rate year-to-date was 15% as compared to 17% a year ago and 16% in first quarter this year.

The Group has adopted an aggressive expansion strategy - to expand its product portfolios and geographic footprint both in the Philippines and across the globe to further seal growth in business earnings. All businesses, RWM included, showed positive profitable results and contributions in the first semester of the year.

Megaworld, the country's largest developer of integrated urban townships, the concept that it pioneered, achieved P6.7 billion net profit, an 11% jump from P6.0 billion a year ago. Net profit has consistently grown 11% year-on-year in the first and second quarters this year. Revenues, which include Global-Estate Resorts, Inc. (GERI), Empire East Land Holdings, Inc. (Empire East) and

Suntrust Properties, Inc. (Suntrust), amounted to P24.3 billion, reportedly up 5% year-on-year. Of the total revenues, around 69% was from residential revenues totaling P16.8 billion, up 2% from P16.4 billion a year ago. These mostly came from the group's township projects across the country. Megaworld-GERI-Empire East-Suntrust brands shared 53%-16%-17%-14% of real estate sales. Rental income from the office and commercial retail spaces continued to be a main driver of growth as it reached a new high of P5.8 billion, up 20% from a year ago, comprising 24% of Megaworld's reported total revenues. Last year, Megaworld broke the one-million square meter mark in leasable spaces across the country. Office space inventory stood at 851 thousand square meters while commercial and retail spaces reached 273 thousand square meters. Hotel revenues also rose 10% to P648 million from P590 million in the same period last year, as the group expanded its homegrown hotel brands, Richmonde and Belmont, in Iloilo Business Park (in Iloilo City) and Newport City (in Pasay City), respectively; and in the second quarter, the 559-room Savoy Hotel Boracay, the third homegrown hotel brand and with its party pool arena, the first-ever in the country, was launched. These operating results brought in 36% and 66% to AGI's consolidated revenues and net profit, respectively.

Emperador, the world's largest brandy company and owner of the world's 5th largest Scotch whisky manufacturer, realized P2.7 billion net profit from P18.1 billion revenues reported during the first half of the year, as compared to P3.4 billion net profit from P18.4 billion revenues during the same period last year. The group had spent heavily on strategic marketing of new products here and abroad, incurred higher interest expense because of new loans for capital expenditures and has not increased prices despite the hike in local excise tax. Sales revenues were sustained at P17.8 billion for both comparative periods. Revenues from the Scotch Whisky business, which accounted for 29% of the group's consolidated revenues, grew 7% from a year ago, driven by own Scotch whisky labels The Dalmore and Jura which were particularly stronger within UK, Travel Retail, Asia and Greater Europe. The Dalmore sales also expanded in Africa and Canada. Whyte&Mackay blended whisky maintained same level of sales. Tamnavulin and Shackleton, two new relaunched products, beefed up revenues. The brandy business, which combined Philippines' Emperador and Spain's Bodegas Fundador brands, on the other hand, sustained revenues from a year ago and accounted for 71% of consolidated revenues this year. The largest and oldest Spanish brandy and sherry business was folded into the Group beginning March 2016, thereby contributing full half year results this year. The distribution in UK of Harveys Sherry (the number one brand in the world and UK) and Fundador Brandy is now being handled by WMG while distribution in the Philippines of The Dalmore, Jura, Whyte&Mackay, Fundador and Tres Cepas is now being handled by EDI. The relatively new local products - Andy Cola, Smirnoff Mule and Raffa Sparkling wine - experienced sales volume expansions this interim period from a year ago. In addition, the Emperador Light 350ml bottle campaigned as "Bunso" and this year's new spicy cinnamon-flavored variant labelled as "Emperador HotShot" get strategic marketing spend and media promotions in the interim period. Gross profit margins ("GPM") in the interim period remained healthy at 33% plus. The current GPMs of the brandy and Scotch whisky segments were posted at 35% and 28%, respectively. For the first six months of the year, Emperador group accounted for 27% of both AGI's consolidated revenues and net profit.

Travellers, the owner and operator of Resorts World Manila (RWM), ended the first half of the year with P11.2 billion consolidated revenues gross of promotional allowance, realizing EBITDA of P2.2 billion and net profit of P373 million therefrom. Gross gaming revenues reached P9.2 billion from P11.8 billion a year ago, with blended win rate of 5.4% this year as compared to 4.8% a year ago. The June 2 incident (see Note 10.2 to the ICFS) that put RWM temporarily non-operational for nearly a month took its toll in the operating results. On a normalized basis, gross gaming revenues would have been P11.5 billion, EBITDA P3.4 billion and net profit P2.0 billion in the first half of the year. Non-gaming revenues (hotel, food, beverage and other revenues) managed to pick up 17% year-on-year, despite the temporary closedown of Maxims Hotel (28days) and the mall, theater, cinema, parking, laundry and spa (14days) for the most part of June. By the end of first half, all hotels registered 80% average occupancy rate. Phase 3 development continues. Travellers group contributed 17% and 4% to AGI's consolidated revenues and net profit, respectively.

GADC, the master franchise holder of McDonald's quick-service restaurants brand in the Philippines, turned over P12.3 billion revenues, up 13% from P10.9 billion a year ago, as net profit climbed 20%

to P595 million from P497 million a year ago. This is achieved from the opening of new restaurants, renovation of existing restaurants, new product launches and the continuous marketing and promotions of core menu. A total of 41 (14 in 2017) new restaurants were opened while 2 (1 in 2017) were closed from a year ago, bringing the total count to 533 restaurants at end of the current interim period as compared to 494 a year ago. Company-owned and operated restaurants totaled 277 at end of current interim period as compared to 260 a year ago. System wide same-store sales grew 5.2% year-on-year. Business extensions also grew by 17.3% where Drive-thru had the biggest contribution. Limited time offers in the first quarter were 'Fish and Fries' (delightful duo of tender fish fillet and McDonald's fries, served with Sweet and Sour, Thousand Island, or Tartar Sauce), Love Desserts (a first ever two-toned cotton candy float topped with creamy soft serve Sprite-based, together with Coke McFloat and Green Apple) and the Mushroom Pepper Steak. In the second quarter were Creamy McFreeze (an upgrade to beverage experience with vanilla soft-serve ice cream on top of frozen soda), Spicy Buffalo-style Chicken (a new hot twist from Chicken McDo), Shake Shake Fries (McDonald's flavored fries in 3 flavors – new creamy truffle, new cheddar and sour cream, and the favorite BBQ flavors) and Despicable Me 3 Meals (themed menu items offers – Cheesy Burger McDo, Honey Banana Mcfloat, Banana Pie A La Mode and Banana McDip). The Burgerdesal and Mushroom Pepper Steak continued to be on the core menu. Cost of sales and services went up by 12%, primarily due to cost of inventory, imported raw materials, rentals and utilities and crew labor costs. These operating results translated into 18% and 6% of the consolidated revenues and net profit of AGI and subsidiaries, respectively.

Revenues for the first six months of both years remained flat at P67 billion. Sales of goods (real estate, alcoholic beverages and snack products) were up by 1% while service revenues (gaming, hotel, quick-service restaurants, rentals, cinemas) were down 1%. The growth in hotel and rental operations of Megaworld and in McDonald stores countered the effect of lost gaming revenues in RWM. Real estate sales pushed up the growth in sales of goods.

Costs and expenses went up 1% year-on-year. Cost of goods sold, which is a function of sales, decreased 2% while cost of services increased 2%. Other operating expenses at P12.7 billion were at about the same level as a year ago. Emperador had increased expenses this year in advertising and promotions (strategic marketing in support of new products and variants, especially Emperador 'Bunso', Shackleton whisky, Terry White and Emperador HotShot), salaries and employee benefits (due to increase in number of employees and new positions created) and supplies (UK is changing datalinks network to all locations, which would result in fall in telephone costs in the long run). Megaworld had expended more on commissions, salaries and employee benefits, advertising and promotions and depreciation and amortization. GADC had increased this year its personnel costs and taxes and licenses (from new store openings) and advertising and promotions (for media mileage). All these increases were mitigated by the reduction in RWM's operating expenses year-on-year brought about primarily by the temporary non-operational days in June.

The **loss from casualty** as recorded by Travellers amounted to P159 million, after insurance claims.

Share in net profits of associates and joint ventures escalated 36% or P36 million due to higher net profit of Emperador Spanish joint venture.

Finance and other income went down 12% this year because of foreign currency gains recognized in 2016 by MEG and Travellers, and gains on sale/valuation of financial assets in 2016. **Finance costs and other charges** went up 37% due to higher interest expense this year as compared to same period last year.

Income tax increased 10% this year as compared to a year ago, which is attributed to higher taxes for Megaworld and GADC this year.

Earnings before interest, taxes, depreciation and amortizations (EBITDA), computed as net profit before share in net profits of associates and joint ventures, income taxes, interest expense, depreciation, amortizations and impairment provisions, amounted to P18.9 billion this year, a 2% spike from P18.6 billion a year ago.

Net profit attributable to owners amounted to P6.7 billion from P7.3 billion a year ago.

The Group had executed well in the first half of the year, despite the hurdles.

Financial Condition

Consolidated total assets amounted to P550.7 billion at end of the interim period from P491.3 billion at beginning of year. The Group is strongly liquid with **current assets** exceeding **current liabilities** 2.0 times. Current assets amounted to P275.8 billion while current liabilities amounted to P140.9 billion at end of the interim period.

Cash and cash equivalents swelled P38.5 billion or 79% to end at P87.1 billion from P48.7 billion at the beginning of the year, primarily from loan proceeds. Cash flows from operating, financing and investing activities during the period were presented in the interim consolidated statements of cash flows.

Current and non-current trade and other receivables increased P2.5 billion or 4% and P2.8 billion or 8%, respectively, from real estate sales and RWM debtors.

Other current assets expanded 18% or P1.5 billion mainly due to an increase in input vat, investments in time deposits, and timing of prepayments and subsequent charging to profit or loss of such expenses.

Non-current available-for-sale financial assets were reduced by P171 million or 28% from sale of marketable securities during the interim period.

Property, plant and equipment stepped up 7% or P6.0 billion primarily from the additional Spanish assets, the ongoing construction works in EMP subsidiaries here and abroad, constructions at RWM and the completed Megaworld corporate headquarters. The three hotels in RWM, namely, Hilton Manila, Sheraton Manila Hotel, and Maxims II, will be completed by 2018. It will also include an additional gaming area, new retail spaces and additional basement parking levels.

Investment property increased 6% or P3.8 billion as more property for lease gets completed by Megaworld.

Deferred tax assets declined 21% or P205 million principally from temporary tax differences of Travellers, GADC and MEG; while **deferred tax liabilities** increased 5% or P525 million principally from MEG and EMP temporary tax differences.

Current interest-bearing loans surged P7.9 billion or 38% from loans obtained by Travellers for its capital expenditure requirements and revolving facility loan by Whyte and Mackay. **Non-current interest-bearing loans** ballooned P27.7 billion or 50% principally from loans obtained by foreign subsidiaries during the interim period.

Bonds payable, both **current and non-current** combined, rose 20% or P12.6 billion primarily due to the newly-issued MEG bonds.

Income tax payable declined 61% or P685 million due to timing of payment as the annual taxes were settled during the interim period.

Non-current advances from related parties shrank 11% or P193 million due to advances made by Megaworld during the interim period.

Other current liabilities swelled 6% or P1.3 billion and **other non-current liabilities** 7% or P1.9 billion from Megaworld's reserve for property development, customers' deposits and other payables.

The **changes in equity components** are presented in detail in the consolidated statements of changes in equity. The equity attributable to owners of AGI increased 5% or P6.8 billion primarily from net profit share for the interim period.

Liquidity and Capital Resources

The consolidated statements of financial position showed strong liquidity with current assets exceeding current liabilities 2.0times. Total-liabilities-to-equity ratio is at 1:2 while interest-bearing-debt-to-equity stands at 0.8:1. Assets exceeded liabilities 2times, and equity 2times as well.

In general, working capital was sourced internally from operations and debts during the period. The Group may also from time to time seek other sources of funding, if necessary, depending on its financing needs and market conditions.

Prospects for the future

AGI has a proven track record of creating value over time and is confident in its ability to deliver sustainable profitable growth and value for its stakeholders. AGI remains vigilant on delivering its business goals and intends to continue to adopt prudent measures to ensure financial sustainability. It recognizes the various opportunities that will enhance the overall profitability of the group while maintaining established products and markets.

Emperador is best positioned to capitalize on premiumization opportunities, with its much bigger product portfolio and inventory of high quality brandy and whisky and greater global reach. The group is looking forward into an exciting integration.

Megaworld has a strong roster of townships nationwide that are backed by adequate landbanking and carefully-thought masterplans. Its aggressive thrust to grow its investment properties has resulted in increased recurring income stream which has insulated it from the vagaries of the property cycle. It has large-scale townships and communities outside of Metro Manila that fit perfectly with the government's planned infrastructure renaissance.

Travellers sees a lot of potential for further growth, as it continues to expand its non-gaming facilities and offerings. It must be dynamic and aggressive to ensure RWM is ready for increased competition and the expanding market. RWM's continued expansion projects will further enhance the existing diversified offerings aimed to provide a holistic customer experience.

GADC targets to open more stores and is consistently bringing out innovations to delight customers.

In 2017, all the business segments are expected to sustain their growth trajectory in line with targets and will continue to bolster their presence in their respective fields.

Others

There were no known material events subsequent to the end of the interim period that would have a material impact in the interim period.

There are no other known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in any material way. The Company does not have nor anticipate having any cash flow or liquidity problems within the year. AGI and its subsidiaries are not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no other known events that will trigger direct or contingent financial obligation that is currently considered material to the Company, including any default or acceleration of an obligation. There are no other material off-balance sheet transactions, arrangements, obligations, and other relationships with unconsolidated entities or other persons created during the reporting period.

There are no other known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are also no known events that will cause material change in the relationship between costs and revenues.

There are no other significant elements of income or loss that did not arise from continuing operations.

There were no other material issuances, repurchases or repayments of debt and equity securities.

The business has no seasonal aspects that had a material effect on the financial condition and results of operations of the Group.

1. CORPORATE INFORMATION

Alliance Global Group, Inc. (the Company, Parent Company, or AGI) was registered with the Philippine Securities and Exchange Commission (SEC) on October 12, 1993 and began operations in 1994 as a glass-container manufacturer. On March 12, 1999, it obtained approval from the SEC to broaden its primary business into that of a holding company. Given a wider scope of business, AGI immediately diversified its investment holdings and on April 19, 1999, AGI listed its shares in the Philippine Stock Exchange (PSE). Currently, the Company and its subsidiaries and associates (collectively referred to as the Group) operate businesses in real estate development, tourism-entertainment and gaming, food and beverage, and quick-service restaurant under the following entities (see Note 4):

AGI's shares of stock and those of Megaworld, EMP, Travellers, GERI, EELHI and SHDI are listed in and traded through the PSE.

The principal activities of the Group are further described in Note 4.

The Company's registered office and primary place of business is located at 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

The Board of Directors (BOD) approved on August 12, 2017, the release of the interim consolidated financial statements (ICFS) of the Group for the six months ended June 30, 2017 (including the comparative financial statements as of December 31, 2016 and for the six months ended June 30, 2016).

2. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in the preparation of these ICFS are consistent with those applied in the audited consolidated financial statements (ACFS) as of and for the year ended December 31, 2016 except for the application of standards that became effective on January 1, 2017 (see Note 2.2).

2.1 Basis of Preparation of Interim Consolidated Financial Statements

These ICFS have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Philippine Financial Reporting Standards (PFRS), and should be read in conjunction with the Group's ACFS as of and for the year ended December 31, 2016.

The ICFS are presented in Philippine pesos, the Company's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the ICFS of the Group are measured using the Company's functional currency. Functional currency is the currency of the primary economic environment in which the Company operates.

The presentation of the ICFS is consistent with the most recent ACFS presentation, except for the amendments introduced by the new accounting standards mentioned in Note 2.2.

The Group presents all items of income and expense in a single consolidated statement of comprehensive income.

2.2 Adoption of New and Amended PFRS

(a) Effective in 2017 that are Relevant to the Group

In 2017, the Group adopted for the first time the following amendments and annual improvements to PFRS that are relevant to the Group and effective for financial statements with annual periods beginning on or after January 1, 2017 which did not have a significant impact on the Group's ICFS:

PAS 7 (Amendments)	:	Statement of Cash Flows – Disclosure Initiative
PAS 12 (Amendments)	:	Income Taxes – Recognition of Deferred Tax Assets for Unrealized Losses
Annual Improvements	:	Annual Improvement to PFRS (2014 – 2016 cycle)

(b) Effective Subsequent to 2017 but are not Adopted Early

There are new PFRS, amendments, interpretation and annual improvements to existing standards effective for annual periods subsequent to 2017, which are adopted by the Financial Reporting Standards Council. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Group's consolidated financial statements:

PAS 40	:	Transfers of Investment Property
PFRS 2 (Amendments)	:	Share-based Payment – Classification and Measurement of Share-based Payment Transactions
PFRS 9 (2014)	:	Financial Instruments

Management is currently assessing the impact of these standards and interpretation on the Group's consolidated financial statements and it will conduct a comprehensive study of the potential impact of these standards prior to their mandatory adoption date to assess the impact of all changes.

3. JUDGMENTS AND ESTIMATES

The preparation of the Group's ICFS in accordance with PFRS requires management to make judgments, estimates and assumptions that affect the policies applied and amounts reported in the ICFS and related explanatory notes. Judgments and estimates are based on historical experience and management's best knowledge of current events and actions, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates. There were no changes in estimates of amounts reported in prior financial years that have a material effect in the current interim period.

The judgments, estimates and assumptions applied in the ICFS, including the key sources of estimation uncertainty, were the same as those applied in the ACFS for the year ended December 31, 2016, except for the significant judgment applied during the interim period in the recognition of impairment losses for damaged capital assets and other casualty losses relating to an incident as more fully discussed in Note 10.2. In addition, Travellers has also assessed and determined that the recovery of the foregoing losses arising from insurance claims is highly probable and virtually certain from the respective third party insurance companies (see Note 10.2).

4. SEGMENT INFORMATION

4.1 Business Segments

The Group is organized into major business segments, which are the major subsidiaries of the Group. These represent the main products and services provided by the Group and the line of business in which the Group operates. Presented below is the basis of the Group in reporting its primary segment information.

- (a) The *Megaworld* segment consists of development of real estate, integrated resorts, leasing of properties and hotel operations business which is primarily undertaken by Megaworld Corporation and subsidiaries, the Group's forerunner in the real estate industry.

- (b) The *Travellers* segment relates to tourism-oriented business that integrates entertainment, hospitality and leisure, including gaming, as that of Resorts World Manila, which is operated by Travellers International Hotel Group, Inc. and subsidiaries.
- (c) The *GADC* segment refers to operations of McDonald's restaurants in the Philippines in accordance with the franchise agreement between GADC and McDonald's Corporation, USA.
- (d) The *Emperador* segment refers to the manufacture and distribution of distilled spirits, particularly brandy and Scotch whisky, including the production of glass containers, which is undertaken by Emperador Inc. and subsidiaries.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash and cash equivalents, trade and other receivables, inventories, property, plant and equipment, intangible assets and investment properties. Segment liabilities include all operating liabilities and consist principally of trade and other payables, interest-bearing loans and bonds payable.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

4.4 Analysis of Segment Information

7. DIVIDENDS

There were no dividends declared and paid by the Company for the six months period ended June 30, 2017 and 2016.

8. EARNINGS PER SHARE

Earnings per share is computed as follows:

	June 30, 2017 (Unaudited)	June 30, 2016 (Unaudited)
Basic:		
Net profit attributable to owners of the parent company	P 6,719,427,993	P 7,285,166,019
Divide by the weighted average number of outstanding common shares	<u>10,146,863,779</u>	<u>10,146,863,779</u>
	<u>P 0.6622</u>	<u>P 0.7180</u>
Diluted:		
Net profit attributable to owners of the parent company	P 6,719,427,993	P 7,285,166,019
Divide by the weighted average number of outstanding common shares	<u>10,252,463,779</u>	<u>10,252,463,779</u>
	<u>P 0.6554</u>	<u>P 0.7106</u>

As of June 30, 2017 and 2016, there are 105.6 million potentially dilutive shares from the Company's Executive Stock Option Plan. However, such number of dilutive shares has no significant effect on the weighted average number of outstanding common shares and, consequently has no material effect on the 2017 and 2016 diluted EPS.

9. RELATED PARTY TRANSACTIONS

The Group's related parties include its stockholders, associates, joint ventures, the Group's key management personnel and retirement fund, and others. The summary of the Group's transactions with its related parties for the periods ended June 30, 2017 and 2016, and the related outstanding balances as of June 30, 2017 and December 31, 2016 are as follows:

Unless otherwise stated, the outstanding balance of the Group's transactions with its related parties are unsecured, noninterest-bearing and payable on demand.

9.1 Purchase of Goods

Emperador imports finished goods and raw materials such as alcohol, flavorings and other items through Andresons Global, Inc., a related party under common ownership.

Emperador also imports raw materials from Alcoholera dela Mancha Vinicola, S.L., a wholly owned subsidiary of BLC; hence a related party under common control.

These transactions are payable within 30 days. The outstanding balances related to these purchases are presented as part of Trade payables under Trade and Other Payables account in the interim consolidated statements of financial position.

9.2 Casino Transactions with GHL

Travellers recognized outstanding accounts payable to GHL representing show money received by GHL from foreign patrons which GHL will later remit to Travellers. The outstanding balances are presented as part of Trade payables under Trade and Other Payables account in the interim consolidated statements of financial position.

9.3 Operations and Management Agreement with GHL

Some of Travellers' administrative functions are being handled by certain key officers and employees under the management of GHL as agreed by both parties under the Operations and Management Agreement. Management fees are presented as part of Management fees under the Other Operating Expenses account in the interim consolidated statements of comprehensive income.

The outstanding balance is presented as part of Trade receivables under Trade and Other Receivables account or as part of Accrued expenses under Trade and Other Payables account in the consolidated statements of financial position. The outstanding liability is unsecured, noninterest-bearing and payable in cash upon demand.

9.4 Advances to Associates and Other Related Parties

Entities within the Group grant advances to associates and other entities for working capital purposes. These advances to associates and other related parties are unsecured, noninterest-bearing and repayable upon demand. Settlement is generally made in cash or through offsetting arrangements. The outstanding balances of Advances to associates and other related parties, which are shown as part of Investments in and Advances to Associates and Other Related Parties account in the interim consolidated statements of financial position, and movement of the account are presented as follows (these mainly represent advances granted by Megaworld):

	June 30, 2017 <u>(Unaudited)</u>	December 31, 2016 <u>(Audited)</u>

9.7 Redeemable Preferred Shares

This pertains to preferred shares issued by GADC in March 2005 and TLC in September 2012.

9.8 Equity-linked Debt Securities

Prior to 2015, EMP issued equity-linked debt securities (ELS) instrument to a stockholder amounting to P5.3 billion, with outstanding amount presented as Equity-linked debt securities under Other Non-current Liabilities account in the interim consolidated statements of financial position. On June 15, 2017, the parties agreed to amend the ELS instrument such that conversion shares shall now be 728,275,862 new shares; interest that has accrued up to this year in the amount of P832.260 million shall be applied as consideration for the Investor's acquisition of 122,391,176 common shares (accrued interest shares) to be delivered by the Issuer no later than December 4, 2017; and fixed interest rate is now 0%.

9.9 Transactions with the Retirement Plans

The Group has a formal retirement plan established separately for each significant subsidiary, particularly Megaworld, GERI, GADC, EDI and WML. These plans are defined benefit post-employment plan maintained for qualified employees, administered and managed by trustee banks (except for GERI which is still an unfunded plan).

Unit investment trust fund and equity and debt securities, which are included as plan assets under the fund consist of investments in corporations listed in the PSE. The retirement fund neither provides any guarantee or surety for any obligation of the Group. The retirement fund also does not have any investments in the Group's shares of stock.

10. COMMITMENTS AND CONTINGENCIES

10.1 Tax Contingencies of Travellers' Casino Operations

Travellers is subject to 25% and 15% license fees, inclusive of franchise tax and in lieu of all taxes, with reference to the income component of the gross gaming revenues, as provided under the Provisional License Agreement with Philippine Amusement and Gaming Corporation (PAGCOR).

In August 2016, the Supreme Court (SC) confirmed that "all contractees and licensees of PAGCOR, upon payment of the 5% franchise tax, shall be exempted from all other taxes, including income tax realized from the operation of casinos." The SC Decision has been affirmed with finality by the SC in a Resolution dated November 28, 2016, when it denied the Motion for Reconsideration filed by the Bureau of Internal Revenue .

10.2 Losses from Property Damages of Travellers

On June 2, 2017, Jessie Javier Carlos ("Carlos") entered Travellers' premises, fired his assault rifle, and set ablaze gaming furniture and equipment in the casino which resulted to physical damages on a portion of the Travellers' properties (see Note 3). He forcibly entered the casino area with a clear motive to rob and he started fires as a diversionary tactic. The smoke from the fires that Carlos started caused the death of 36 employees and guests, as well as physical injuries to many.

As opined by external counsel, based on the reports of from the insurer's adjusters, and taking into consideration the reports of the pertinent government agencies, there is strong legal ground to believe that the claim related to the June 2 incident will not be disallowed. Consequently, Travellers recognized and presented property damage and losses and other losses as Losses from Casualty, net of reimbursement from expected minimum insurance claims and recoveries in the 2017 interim consolidated statement of comprehensive income. The related receivable representing the reimbursement from expected minimum insurance claims and recoveries from third party insurance companies is presented as part of Trade and Other Receivables account in the 2017 interim consolidated statement of financial position.

10.3 Other Commitments and Contingencies

There are other commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group which are not reflected in the accompanying ICFS. The management is of the opinion that losses, if any, from these items will not have any material impact on the ICFS.

In addition, there are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

11. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at FVTPL, AFS financial assets, interest-bearing loans, bonds payable, trade receivables and payables and derivative asset and liabilities which arise directly from the Group's business operations. The financial debts were issued to raise funds for the Group's capital expenditures.

The Group does not actively engage in the trading of financial assets for speculative purposes.

The Group is exposed to a variety of financial risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

11.1 Market Risk

(a) Foreign Currency Sensitivity

Most of the Group's transactions are carried out in Philippine pesos, Euros, UK pounds and U.S. dollars, which are the functional currencies of the individual subsidiaries making the transactions. The currency exchange risk arises from transactions carried out in currencies other than the functional currency of the subsidiaries at each entity level.

Foreign-currency denominated financial assets and financial liabilities, translated into Philippine pesos at period-end closing rate are as follows:

	<u>June 30, 2017 (Unaudited)</u>		<u>December 31, 2016 (Audited)</u>	
	<u>U.S. Dollars</u>	<u>HK Dollars</u>	<u>U.S. Dollars</u>	<u>HK Dollars</u>
Financial assets	P 11,586,540,270	P 2,926,879,175	P 2,668,826,850	P 1,875,066,202
Financial liabilities	(38,394,191,274)	(342,561,222)	(37,979,525,901)	(427,946,563)
	<u>(P 26,807,651,005)</u>	<u>P 2,584,317,953</u>	<u>(P 35,310,699,051)</u>	<u>P 1,447,119,639</u>

The sensitivity of the consolidated income before tax for the period with regard to the Group's financial assets and the U.S. dollar – Philippine peso exchange rate assumes +/- 7.21% and +/- 7.50% changes in exchange rate for the six months ended June 30, 2017 and for the year ended December 31, 2016, respectively. The HK dollar – Philippine peso exchange rate assumes +/- 10.55% and +/- 9.10% changes for the six months ended June 30, 2017 and for the year ended December 31, 2016, respectively. These percentages have been determined based on the average market volatility in exchange rates in the previous 12 months estimated at 95% level of confidence. The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting periods.

If the Philippine peso had strengthened (or weakened) against the U.S. dollar, with all other variables held constant, consolidated profit before tax would have increased (or decreased) by P1.9 billion for the six-month period ended June 30, 2017 and P2.6 billion for the year ended December 31, 2016. If in 2017 and 2016, the Philippine peso had strengthened (or weakened) against the HK dollar, with all other variables held constant, consolidated profit before tax would have decreased (or increased) by P0.3 billion for the six-month period ended June 30, 2017 and P0.1 billion for the year ended December 31, 2016.

The Group periodically reviews the trend of the foreign exchange rates and, as a practical move, increases its U.S. dollar-denominated time deposits in times when the Philippine peso is depreciating or decreases its U.S. dollar-denominated placements in times when the Philippine peso is appreciating.

Exposures to foreign exchange rates vary during the period depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

(b) *Interest Rate Sensitivity*

The Group's interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. At present, the Group is exposed to changes in market interest rates through bank borrowings and cash and cash equivalents, which are subject to variable interest rates. The Group maintains a debt portfolio unit of both fixed and variable interest rates. All other financial assets are subject to variable interest rates.

The sensitivity of the consolidated profit before tax for the period to a reasonably possible change in interest rates of +/- 0.97% for Philippine peso and +/- 1.20% for U.S. dollar in 2017, and +/- 0.30% for Philippine peso and +/- 1.24% for U.S. dollar in 2016 with effect from the beginning of the period. These percentages have been determined based on the average market volatility in interest rates, using standard deviation, in the previous 12 months estimated at 95% level of confidence.

The sensitivity analysis is based on the Group's financial instruments held at June 30, 2017 and December 31, 2016, with effect estimated from the beginning of the period. All other variables held constant, the consolidated profit before tax would have increased by P2.0 billion for both periods. Conversely, if the interest rates decreased by the same percentage, consolidated profit before tax would have been lower by the same amount.

11.2 Credit Risk

Generally, the Group's credit risk is attributable to trade and other receivables arising mainly from transactions with approved franchisees, installment sales receivables, rental receivables and other financial assets. The carrying values of these financial assets subject to credit risk are disclosed in Note 12.

The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporates this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. Franchisees are subject to stringent financial, credit and legal verification process. In addition, accounts receivables are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant portion of sales, advance payments are received to mitigate credit risk.

With respect to credit risk arising from the other financial assets of the Group, composed of cash and cash equivalents, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Cash in banks are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P500,000 per depositor per banking institution.

Trade and other receivables that are past due but not impaired are as follows:

	June 30, 2017 (Unaudited)	December 31, 2016 (Audited)
Not more than 30 days	P 1,224,818,202	P 4,384,989,691

	<u>P 5,522,410,503</u>	<u>P 7,651,579,778</u>

11.3 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of loans, bonds, and preferred shares.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits, mutual funds or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets. In addition, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities, in case any requirements arise. Fund raising activities may include bank loans and capital market issues.

As of June 30, 2017, the Group's financial liabilities have contractual maturities which are presented below.

	Current		Non-current	
	Within 6 Months	6 to 12 Months	1 to 5 Years	Later than 5 Years

The contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting period.

11.4 Other Price Risk Sensitivity

The Group's market price risk arises from its investments carried at fair value (financial assets classified as AFS financial assets). It manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

For equity securities listed in the Philippines, the observed volatility rates of the fair values of the Group's investments held at fair value and their impact on the equity as of June 30, 2017 and December 31, 2016 are summarized as follows:

	<u>Observed Volatility Rates</u>		<u>Impact on Equity</u>	
	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>
2017 - Investment in equity securities	+29.50%	-29.50%	<u>P 13,917,880</u>	<u>(P 13,917,880)</u>
2016 - Investment in equity securities	+37.30%	-37.30%	<u>P 153,909,820</u>	<u>(P 153,909,820)</u>

The maximum additional estimated loss in 2017 and 2016 is to the extent of the carrying value of the securities held as of these reporting dates with all other variables held constant. The estimated change in quoted market price is computed based on volatility of listed companies at the PSE for the past six months in 2017 and 12 months in 2016, at 95% confidence level.

The investments in listed equity securities are considered long-term strategic investments. In accordance with the Group's policies, no specific hedging activities are undertaken in relation to these investments. The investments are continuously monitored and voting rights arising from these equity instruments are utilized in the Group's favor.

13. FAIR VALUE MEASUREMENT AND DISCLOSURES

13.1 Fair Value Hierarchy

The hierarchy groups financial assets and financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets or for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the resource or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or financial liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value of Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing services, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

13.2 Financial Instruments Measured at Fair Value

The table below shows the fair value hierarchy of the Group's classes of financial assets and financial liabilities measured at fair value in the interim consolidated statements of financial position on a recurring basis as of June 30, 2017 and December 31, 2016.

For financial assets and financial liabilities with fair values included in Level 1, management considers that the carrying amounts of those short-term financial instruments approximate their fair values.

The fair values of the financial assets and financial liabilities included in Level 2 and Level 3 which are not traded in an active market is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

When the Group uses valuation technique, it maximizes the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, it is included in Level 3.

13.4 Investment Property Measured at Cost for which Fair Value is Disclosed

As of December 31, 2016, the fair value of the Group's investment property amounting to P260.8 billion is classified within Level 3 of the fair value hierarchy. The Level 3 fair value of the investment property was determined using the income approach which is performed with values derived using a discounted cash flow model. Also, there were no transfers into or out of Level 3 fair value hierarchy. There was no valuation update made for the current period.

14. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objective is to ensure its ability to continue as a going concern; to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk; and to maintain strong and healthy financial position to support its current business operations and drive its expansion and growth in the future.

There were no changes in the Group's approach to capital management during the period.
